## EXPERTS IN WATTANEYA CLADDING

**WATTANEYA ACP** is relatively easy process that can be done with ordinary commercial metal and wood working equipment for cutting.

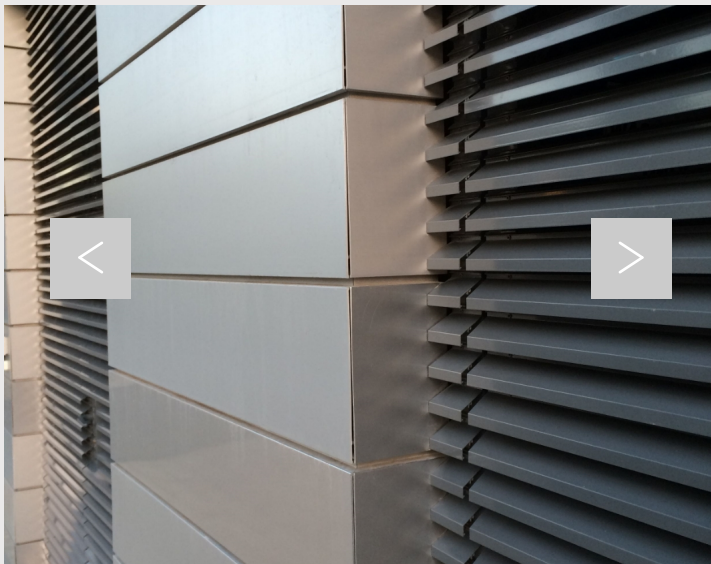

**WATTANEYA ACP** convenient constructions, short working time no special maintenance, beautiful and cheap.

At **WATTANEYA**, we carry out a strong quality management at every step. There are multiple quality check points and every step undergoes expert supervision right from procurement of raw materials to the manufacturing process in order to meet the market requirements and timely deliveries. Our process-oriented approach ensures adherence and consistency in our performance and product quality.

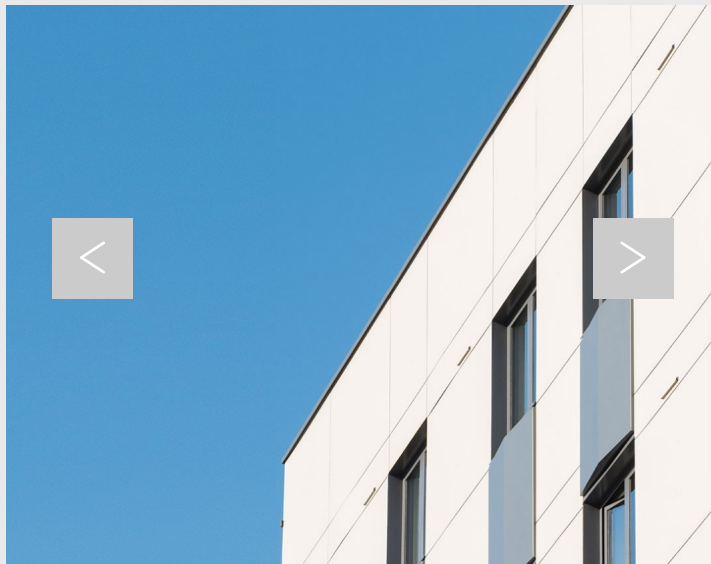

- **Processability:** Easy to process and install, can be cut, punched, bent can be made into shaped flat plate, curved plate and light weighted.
- **Environmental protection:** ACP is easy to clean, easy to maintain, non-toxic gas release, and complex environmental protection requirements.
- **Decorative:** ACP combines the functions and aesthetics perfectly, solves the shortcomings of the aluminum veneer, makes the appearance more vivid.
